

| Program Title   | Water Supply | Delta Ecosystem | Water Quality | Risk Reduction |
|---|--------------|-----------------|---------------|----------------|
| Anadromous Fish Restoration Program (AFRP)                                      |              | x               |               |                |
| Aquatic Invasive Species Program (AISP)   |              | x               |               |                |
| Cache Creek Watershed and Basin (CCSB) Mercury Studies                          |              |                 | x             |                |
| California Levee Vegetation Research Program (CLVRP)                            |              |                 |               | x              |
| California Sport Fish Advisory Program  |              |                 | x             | x              |
| California Statewide Groundwater Elevation Monitoring                           | x            |                 |               |                |
| California Water Plan Update  | x            |                 |               |                |
| California Water Quality Monitoring Council                                     |              |                 | x             |                |
| Central Valley & Klamath Activities - NOAA                                      |              | x               |               |                |
| Central Valley Activities - NOAA  |              | x               |               |                |
| Clean Water / RMP - SFEI  |              | x               |               |                |
| Confined Animal Facility Program  |              |                 | x             |                |
| Conservation Biology - SFEI   |              | x               |               |                |
| Coordinated Science Program - SFCWA   | x            | x               |               |                |
| Delta Juvenile Fish Monitoring Program  |              | x               |               |                |
| Delta Levees Program - DFG  |              | x               |               |                |
| Delta Levees Program - DWR  |              |                 |               | x              |
| Delta Science Program - DSC   | x            | x               | x             | x              |
| Early Implementation Program (EIP)  |              |                 |               | x              |
| Ecosystem Restoration Program   |              | x               |               |                |
| Environmental Data, Information & Technology                                    |              | x               |               |                |
| Flood Corridor Program (FCP)  |              | x               |               | x              |
| Historical Ecology - SFEI   |              | x               |               |                |
| Inland Administrative Region  |              |                 |               | x              |
| Integrated Regional Water Management Grant Program                              | x            |                 |               |                |
| Interagency Ecological Program (IEP)  |              | x               | x             |                |
| Irrigated Lands Regulatory Program  |              |                 | x             |                |
| Juvenile Salmon Survival Studies  |              | x               |               |                |
| Klamath Activities -NOAA  |              | x               |               |                |
| Levee Evaluation Program (LEP)  |              |                 |               | x              |
| Lower Feather River Corridor Management Plan (LFRCMP)                           | x            | x               |               | x              |
| McCormack Williamson Tract Restoration Project                                  |              | x               |               |                |
| Municipal Water Quality Program   |              |                 | x             |                |
| National Pollution Discharge Elimination System (NPDES) Self Monitoring Program |              |                 | x             |                |
| Perennial Stream Assessment (PSA)   |              |                 | x             |                |
| Public Health Goals Program   |              |                 | x             | x              |
| Regional Monitoring Program   |              |                 | x             |                |
| Section 401 Water Quality Certification Program                                 |              |                 | x             |                |
| State Water Resource Control Board Bay-Delta Program                            | x            |                 |               |                |
| Storm Water   |              |                 | x             |                |
| Suisun Marsh Habitat Management, Preservation, and Restoration Plan             |              | x               |               |                |
| Surface Water Ambient Monitoring Program - SWRCB                                |              |                 | x             |                |
